I was out yesterday, but did a quick review this morning. I believe Melissa had someone look at it yesterday. With that said, there is no specificity in the WMP. AFFF and PFAS need to be highlighted in great detail in the WMP. They are not. PFAS-containing waste needs to be segregated and handled separately.

Since the wastes will likely be going to Texas disposal facilities, TCEQ should be the regulatory lead on the WMP approval, and it's my assumption they had a plethora of comments.

We need a quick review of this by Waste expert, TCEQ is reviewing as authorized agency as well.
